Mayor Mitchel Receives Reply From
Army Officer on Isthmus of Panama
Saying He Will Accept Position
After Waterway Is Completed If He
Is Given Complete Control Over Po-
lice Department.

Panama Jan. 24.—Colonel George
W. Goethals, chief engineer of the
Panama canal, will accept, under cer-
tain conditions, the position of police
commissioner of New York city. The
post was tendered him by Mayor John
Purroy Mitchel through a letter
brought by George W. Perkins and in
his reply Colonel Goethals signifies
his willingness to accept.

The conditions are that he shall be
permitted to remain on the isthmus
until the canal is completed and in
successful operation and that he be
given complete control over the police
department.

Colonel Goethals, in his letter to
Mayor Mitchel, says that under no
circumstances will he accept the com-
missionership unless these conditions
are agreed to. He added that as he
will still be an army officer after he
will here be completed he will not re-
sign in order to accept Mayor Mitchel's
offer, but that he will take the position
if President Wilson gives him
permission to retire.

Insists Upon Full Control.

Colonel Goethals insists he must
have complete control over the police
department in case of his acceptance,
including the right to dismiss incompe-
tent men without their having the
right to appeal to a court which would
have the power to annul his dismis-
sals.

In other words, he demands that
the law which gives courts the right,
on appeals from the commissioner's
decisions, to review cases and rein-
state men with back pay, be repealed
by the legislature.

Colonel Goethals said Mr. Perkins
made a special trip to the isthmus
to bring him the letter from Mayor
Mitchel containing the offer of the
commissionership. He added the con-
ditions he imposed seem practically
to preclude his becoming the head of
the New York police department.

When the offer was first made, he
said, it looked attractive to him, but
investigation showed him that the
police commissioner's powers are too
limited to make it possible to carry
into effect reforms such as he would
propose.

WILLING TO MEET CONDITIONS

New York Mayor Anxious to Secure
Colonel Goethals.

New York, Jan. 24.—Mayor John P.
Mitchel, in announcing that he had
obtained from Colonel George W.
Goethals a qualified acceptance of an
offer of the New York police commis-
sionership, made it known that he will
take steps at once to meet the condi-
tions laid down by the Panama canal
builder.

The mayor said a bill will be intro-
duced in the legislature at Albany at
once giving the commissioner added
powers and intimating that he will be
willing to meet Colonel Goethals' other
condition of a wait until the end of
1914, when the colonel's work on the
isthmus will be completed.

O'GORMAN WILL TAKE STAND

Senator to Testify in Alleged High-
way Graft Probe.

New York, Jan. 24.—United States
Senator James O'Gorman will be a
witness next week in District At-
torney Charles J. Whitman's John Doe
investigation into state highway and
canal graft, Mr. Whitman announced.
Senator O'Gorman was quoted by
William Sulzer in his testimony
Wednesday as having told him that
James E. Gaffney, business associate
and political assistant of Charles F.
Murphy, leader of Tammany Hall, had
attempted to exact a \$100,000 political
contribution from James C. Stewart,
a state highway contractor, the sena-
tor's client.

The district attorney conferred for
several hours with Senator O'Gor-
man.

traveling from east to west. Windows
rattled in San Francisco, Oakland and
Berkeley.

SPEER MAKES HOT PROTEST

Jurist Aroused by Charges Affecting
His Mind.

Macon, Ga., Jan. 24.—Retirement
of charges that Federal Judge Emory
Speer was mentally unbalanced and
showed favoritism in deciding cases
before his court brought Judge Speer
to his feet with a vigorous protest at
the hearing before the congressional
committee investigating allegations
against his conduct. It was the first
time he had attempted to address the
committee.

The outburst followed a declaration
by Alexander Akerman, United States
district attorney, that the judge had
delivered a charge to a jury antago-
nistic to the government.

GUARDS STOP RIOT
IN HUNGARIAN HOUSE

Over a Dozen Deputies Are
Thrown Out Bodily.

Budapest, Hungary, Jan. 24.—Armed
guards were called into the lower
house of the Hungarian parliament to
arrest unruly members during a de-
bate on the press reform law. For-
mer Premier Count Julius Andrássy,
Count Aladar Zichy and a dozen other
deputies were thrown out of the build-
ing after defying a ruling by the president.

The uproar was so great that it was
impossible to conduct business until
the members of the opposition had
quit the house in a body.

As the result of insults bandied
across the floor of the house Deputy
Desy challenged Count Stephen
Tisza, the Hungarian premier, to fight
a duel.

The press reform law was carried
after the tumult had subsided. The
bill is designed to protect the gov-
ernment against attacks by the press,
but the opposition insists that it im-
perils the freedom of the Hungarian
people.

MINERS EXPEL LOCAL UNION

Accused of Being Maintained by De-
fective Agency.

Indianapolis, Jan. 24.—On charges
that it was an organization main-
tained by a defective agency solely to
get a spy into the convention local union
No. 379 of Pocahontas, W. Va., was
expelled by the convention of the
United Mine Workers of America
here. M. D. Whitesell, the delegate
accredited to the union, was not in
the convention hall when the action
was taken.

The attack on the union was started
by A. R. Watkins of Yorkville, O., an
international board member, who de-
clared it was dangerous for a union
miner to appear in the neighborhood
of Pocahontas.

"Show the spy to us and we'll take
care of him," declared Thomas Cairns
of Charleston, W. Va., president of
the district in which Pocahontas is
located.

TOWN DESTROYED BY QUAKE

Nearly Every House in Lepante,
Greece, Damaged.

Athens, Jan. 24.—A severe earth-
quake occurred at Lepante. Almost
every house in the town was dam-
aged and the fortress partially wrecked,
but nobody was injured.
Lepante, or Naupaktos, is a seaport
on the Gulf of Corinth, with a popu-
lation of about 3,000.

NEW HAVEN REQUIRES TIME

Elliott Says Forced Sales Would Help
No One.

New York, Jan. 24.—Though ready
to give up ownership and management
of its outside interests as fast as it
can be done the New York, New Hav-
en and Hartford Railroad company
will require considerable time to sepa-
rate itself from the properties in-
volved, Howard Elliott, chairman of
the board of directors of the company,
said at a dinner.

"It is obvious," Mr. Elliott said,
"that it will take considerable time to
sell the securities representing owner-
ship because it will help no one to
insist upon 'forced sales' of these
properties at a time of excitement."

WOULD IMPROVE THE YIELDS

Agriculture in United States Neglected
Compared With What Is Done in
Other Countries—Cummins Let It Be
Known That He First Favored Presi-
dential Primaries—Ashurst Active.

By ARTHUR W. DUNN.

Washington, Jan. 24.—[Special.]—
Agricultural extension work is the
purpose of the bill fathered by Senator
Hoke Smith of Georgia and which he
explained to senators last week in a
manner that received the closest at-
tention. Teach the farmers how to
farm so as to make their lands pro-
duce more is what Senator Smith was
trying to impress upon the senate.
Agriculture in the United States is
neglected compared to what is done
in every other country, particularly
those thickly populated.

It is expected that the agricultural
extension bill will become a law be-
fore this session adjourns. It con-
templates having an agricultural in-
structor in every county in the United
States who is informed as to the soil
and climatic conditions and who can
tell the farmers what crops are best
for their farms and give them infor-
mation as to how to improve their
yields.

A Mistaken Policy.

The suggestion was made during the
debate on the Alaska railroad bill that
it would have been better if the gov-
ernment had built outright the rail-
roads, to which such liberal subsidies
in the way of land grants were given
half a century ago, and to have given
them to the men who really built
them and made available the rich lands
which were thus frittered away. Pos-
sibly it would have been better if the
policy of allowing railroads to be built
to meet the demands of settlement
and conducted upon a business basis
had been followed. The west would
not have been developed so fast, but
there would have been no vast grants
of land in the hands of big corpora-
tions.

Think of forty mile strips on
each side of railroad lines in which
every other section or one-half of the
entire strip was given away to railroads!
Parcel Post by Freight.

During the discussion of the parcel
post feature of the postoffice appropria-
tion bill Congressman Lewis of
Maryland, who has given a great deal
of attention to the subject, asked:

"Do you know of any fundamental
objections to utilizing fast freight
service for the parcel post?"

"I think it is entirely practicable,"
replied Chairman Moon.

Cummins' Pre-emption.

Senator Cummins of Iowa let it be
known that he was more than a year
ahead of President Wilson in the mat-
ter of presidential primaries. Not long
ago he called attention to a bill he in-
troduced in the last congress, some
eighteen months since; also that he
had introduced the bill in the early
days of this congress and inquired if
a report might not be expected upon
it. He developed the matter with suf-
ficient clearness to make the record
show that he was a long time in ad-
vance of the president's message on
the subject.

Must Keep Order.

They have a new rule in the senate
which provides that the presiding of-
ficer must keep order. That means
Vice President Marshall. One day a
senator complained about lack of or-
der. Mr. Marshall said:

"The chair has long ceased to hope
that he could keep order in the senate
of the United States."

"But the rules make it the duty of
the chair to keep order," replied the
senator.

"I have not been able to find any-
thing like that in the rules," said Mr.
Marshall. And then they began look-
ing it up, and, behold, there was no
such rule! So they fixed one, and
hereafter the vice president will have
the power to enforce order on the
floor. But he can't do it. The senate
makes its own decisions.

Starts Something.

Senator Ashurst can be depended
upon to "start something" almost any
day. No one can tell just what he
may do next, but it is generally some-
thing interesting. When the Arizona
senator begins he is almost sure to
have half a dozen old timers going
before he gets through. After he has
been particularly severe or had a "run-
in" with another senator he goes over
and has a real confidential talk in or-
der to show that fight was purely
Pickwickian or at least it was for the
public and was not to interfere with
his private relations with senators.

Flag Bill Again.

The bill to prevent the desecration
of the American flag by prohibiting the
emblem from being used in connection
with advertising has again made its
appearance. This time it was intro-
duced by Congressman Byrns of Ten-
nessee. The bill has been constantly
before congress for a quarter of a cen-
tury. Sometimes it passes one house
and is often reported from committees.
But it never gets through both houses
the same term of congress.

NATIONAL CITY BANK
MAY ENTER SYSTEM

President Vanderlip Is at Pres-
ent in Paris.

New York, Jan. 24.—That the Na-
tional City bank, the largest institu-
tion of its kind in the country, in all
probability will enter the federal re-
serve system to be created by the new
currency law, was learned from offi-
cials of the bank.

This put at rest rumors recently
current to the effect that the Na-
tional City bank contemplated surren-
dering its federal charter and merging
with the Corn Exchange bank, the
largest state institution.

Such an institution would create a
state bank whose combined resources
probably would overshadow any re-
gional reserve bank which might be
established at this center.

It is probable no official statement
will be made until the return of Frank
A. Vanderlip, president of the City
bank, who is in Paris conferring with
James Stillman, chairman of the board
of directors.

Financiers not affiliated with the
City bank expressed surprise when in-
formed of its intention, chiefly be-
cause of the opposition to the curren-
cy bill maintained by some of its lead-
ing officers.

WOLGAST DEFEATS RIVERS

Has Best of Ten-Round Battle at Mil-
waukee.

Milwaukee, Jan. 24.—Joe Rivers was
beaten in a ten-round battle by his
old foe, Ad Wolgast, the fighting wild-
cat from Cadillac, Mich., Wolgast be-
ing given the decision by all the
critics at the ringside.

Rivers' own seconds made no
claims of victory, or even a draw, ex-
plaining Rivers' showing by the an-
nouncement that he hurt his hand in
the fourth round and was not able to
do effective work after that. The
sixth round, however, was the only pe-
riod in the fight in which Rivers had
any advantage, but the first three, be-
fore the alleged injury, were fast and
rough.

Rivers unquestionably was not as
aggressive as Wolgast, and Wolgast
landed five blows to Rivers' one. On
the other hand, however, Rivers picked
up many of Wolgast's punches on the
forearm and saved himself from in-
jury by doing so.

CONFIDENT OF HOME RULE

Trustees of Fund Say No Appeal for
Money Will Be Made.

Dublin, Jan. 24.—The trustees of the
Irish "home rule" fund are so con-
fident of the "home rule" bill passing
the house of commons within the next
few months that they issued a formal
notification that no appeal for funds
would be made this year either in the
United States or elsewhere.

HITS BOY SCOUT MOVEMENT

Resolution Before Mine Workers'
Convention.

Indianapolis, Jan. 24.—Some radical
resolutions remained for considera-
tion of the United Mine Workers of
America convention, which began
consideration of the report of the
committee on resolutions on Wednes-
day afternoon.

Several resolutions, directed against
the militia and the Boy Scout move-
ment, have been introduced and an-
other proposes that there be a general
strike of miners in case an interna-
tional war is engaged in by the United
States.

Deny Postal Bill Coupler.

Washington, Jan. 24.—The house
rules committee refused to make a
special provision to couple a \$25,000,
000 good roads appropriation with the
proposal to exempt 2,400 assistant
postmasters from civil service in the
new postal appropriation bill. Either
provision may now be eliminated on
a point of order.

BANS TIPS IN CANAL ZONE

Employees Prohibited From Receiving
Gifts or Commissions.

Washington, Jan. 24.—By executive
order President Wilson promulgated
what is practically an anti-tipping
law for the Panama canal zone. Aside
from prohibiting employees of the
canal organization from receiving re-
bates or commissions on supplies it
prohibits gifts intended to influence
any employees on the isthmus without
the knowledge of the employer.

SOUTHERN TRAIN HELD UP

Robbery by Three Men Reported to
Chattanooga Police.

Chattanooga, Tenn., Jan. 24.—It is
reported here that Southern railway
train No. 41 was held up and robbed
at Facklers, Ala.

Bloodhounds were sent from here
on a special train in charge of a num-
ber of deputies.

A telephone message said three men
boarded the train at Facklers, cut out
the engine and mail car and forced
the engineer to run six miles from the
scene of the holdup.

MUST PAY \$150 FOR
\$15 WORTH OF FOOD.

Bismarck, N. D., Jan. 24.—
Herman Klug of Grand Forks
county must pay ten times as
much for \$15 worth of food,
delivered to him while he was
under quarantine at his farm
home near Northwood, than if
he had settled without disput-
ing the bill.

The supreme court ordered
Klug to pay the merchandise
bill. The clerk's record of the
case shows that costs have
brought the total to \$150.

COPPER ROD AROUND EARTH

Scientist Would Correct Some of Our
Weather Vagaries.

London, Jan. 24.—"We have built
miles of railroad and why should we
not now spend the capital in contriv-
ing the weather?"

This was the keynote of Sir Oliver
Lodge's lecture before the institute of
electrical engineers.

His theory is that the sun dis-
charges a mixture of ions with pos-
itive and negative electricity, but the
magnetic poles coax the positive por-
tion to the polar regions where they
are wasted in aurora borealis, while
the warmer climates get the benefit
only of the negative ions. Sir Oliver
therefore advocates the shifting of
the magnetic poles.

"Much could be done by placing a
copper rod around the earth parallel
to the equator which would be able
to discharge millions of amperes and thus
correct the present climatic vagar-
ies," he said.

President Invites Senators to
White House.

PURPOSE IS KEPT SECRET

Persons Close to Chief Executive In-
timate That Panama Canal Tolls,
Japanese Alien Land Controversy,
Mexican Situation Unratified Arbi-
tration Treaties and Bryan Peace
Pacts Will Be Discussed.

Washington, Jan. 24.—President
Wilson invited the senate committee
on foreign relations to confer with
him at the White House next Monday
night. The purpose was not indicat-
ed in the invitations, which were sent
to Chairman Bacon and all Republi-
can and Democratic members of the
committee.

Persons close to the president said,
however, that the Panama canal tolls,
the Japanese alien land controversy,
the Mexican situation, the unratified
arbitration treaties and the proposed
Bryan peace treaties probably will be
discussed.

Senator Bacon was with the presi-
dent for an hour.

The Georgia senator said that on
account of the tariff and the currency
legislation he had not wished to bring
the arbitration treaties into the fore-
ground, but now he will urge their
ratification.

Though White House officials did
not comment on the forthcoming con-
ference it is believed in well informed
circles that the president has called
it because he is ready to discuss in
detail the arbitration treaties, which
were sidetracked in the administra-
tion's desire to have the tariff and
currency measures passed. It was
suggested, too, some idea of the
status of the negotiations between
Colombia and the United States might
be conveyed to the senators.

With respect to the Panama tolls
question Representative Adamson of
the house committee on interstate
commerce has introduced a joint
resolution to suspend operation of
the free tolls provision for two years
to determine whether the canal could
be self-supporting without American
revenues.

mandant of the Portsmouth, N. H.,

naval examining and retiring boards,
San Francisco.

CAPTAIN FIELD LOSES SHIP

Reduced Five Numbers Also for Let-

Washington, Jan. 24.—Captain Har-
ry A. Field, commanding the battle-
ship Louisiana, has been found guilty
by a courtmartial of "hazarding his
ship by navigating without a chart"
when the Louisiana grounded on a
reef off Vera Cruz last August. He
will lose five numbers in grade and
be relieved of his command.

Captain Field's defense was that the
battleship's chart had been removed
without his knowledge.

ST. LOUIS ISSUES VICE BAN

Segregated District Will Be Closed
March 1.

St. Louis, Jan. 24.—The entire seg-
regated district of St. Louis will be
closed for all time March 1, by an
order of the board of police commis-
sioners.

The order is the result of a crusade
begun here by the committee of one
hundred for the suppression of com-
mercialized vice. It means the elimi-
nation from St. Louis of about seventy
resorts and about 800 inmates.

Free lock boxes in cities that do not have free delivery of mail is occupying the attention of Representative Lindbergh, who is planning an amendment to the postoffice appropriation bill. The contention is made that if patrons of large and small cities are entitled to free mail delivery and the country people to their rural service then the people in centers not having either are entitled to free boxes in the postoffice.

In figuring your wealth in order to give the tax collector a true statement if you have listed your sweetheart as part of your property you have made a mistake, for the supreme court has decided that a man's sweetheart is not his property, and that he cannot sue another man for winning her away. Wade Davis, a Minneapolis man, started a suit for \$20,000 against Dr. Condit, because the doctor won the girl to whom he was engaged. The doctor demurred, and the district court sustained the demurrer, and today the supreme court did likewise. The court held that the only person who could bring suit of this kind was a husband or wife.

The newspapers attempting to rub it into the governor for his appointment of Mr. Partridge to succeed John Lind as a member of the board of regents of the state university seem to have jumped at conclusions, and the laugh is on the fellows who tried to make Gov. Eberhart look ridiculous in the matter. With all due respect to John Lind and what he has done for the state university he seems to have been succeeded by a gentleman of his own political affiliation and who is spoken of in the highest terms by the public in general. Lind's resignation was in the hands of the governor, but the newspapers looking for something to criticize thought they had a chance to do some knocking.

There are nearly 400 Indians living around Mille Lacs lake who have refused to take allotments on the reservation at White Earth and a delegation of that band is now in Washington asking that \$20,000 be appropriated for the purchase of lands

on which they can live. This will not be done until a thorough investigation is made as to the needs of this band who refuse to take up their abode in a new section, and in the meantime Representative Miller is endeavoring to have an appropriation made for the erection of a school and to provide a physician to look after their needs. An Indian is an Indian, and for that he seems to have gotten the worst of it as long as the memory of man runneth.

STICK TO CONNIE MACK

None of the Athletics Leave the Silent Leader—Pitcher Joe Graves a Recruit

Philadelphia, January 23.—Connie Mack, manager of the world's champion Athletics, has announced the names of the players that have signed contracts for the coming baseball season, the list including all the regulars with the exception of Pitchers Coombs and Plank, Catcher Thomas and Capt. Dan Murphy. The last named player is away on a hunting trip and the other unsigned men will send in their contracts in a few days, it was stated.

In addition to McInnis, Collins, Barry and Baker, the peerless infield, Orr and Caruthers have signed as infielders. Lavin, another substitute, has not yet signed and may not be with the team this year.

Several new pitchers are revealed in Mack's long string. They are Baker, Van der Ver, Boken and young Joe Graves, of Walker, who pitched for Brainerd in several hotly contested games. The young catchers signed up are McAvoy and Sturgis. They will work in the south with the team in the spring and may reach the big league. Brainerd and Walker fans have high hopes that young Graves will make the big show.

The outfielders besides E. Murphy, Strung and Oldring, include Daley, Thompson and Brickley, the latter a brother of Harvard's football captain.

Miss Edna Gunnar Peterson Plays at Brainerd Musical Club Concert This Afternoon

Miss Edna Gunnar Peterson, who plays at the Brainerd Musical "club treat" this afternoon, arrived from Chicago on the afternoon train and was met at the station by Mrs. Henry I. Cohen, president of the Brainerd Musical club.

Of all the artists who have played before the local club, Miss Peterson is the most youthful. Although her physique is slight, she has the temperament and the fire of genius and the maturity and breadth of her musical interpretation show the intellectual grasp she has of the greatest of masterpieces in musical literature.

THE MISSIONARY CAMPAIGN

Representatives are Appointed From Local Churches to Conduct Canvass in March

The sessions held in connection with the Laymen's United Missionary movement closed last night with addresses by President Bowen of the Nanking University, China; Dr. E. R. Pope of Minneapolis and Dr. Hitchcock of the Congregational board of Missions, Chicago.

Both President Bowen and Dr. Hitchcock made stirring appeals for the response to the great open doors in the mission field. It was particularly gratifying to hear President Bowen tell of the respect that Chinese hold for Americans on account of their remitting of the Boxer indemnity and their influence in keeping the powers from dividing China.

The practical outcome of this movement will be an effort on the part of every church in the city to make a personal canvass of every member of the church, both large and small, for missions.

The continuation committee in charge of this work consists of the following men, each one representing a separate church. The canvass is to be made in March:

H. F. Michael, chairman, Methodist; Dr. Jos. Nicholson, vice chairman, Swedish Baptist; J. A. McKay, Presbyterian; G. A. Beale, Baptist; A. Gilbertson, Norwegian Lutheran; John Zander, Evangelical; R. K. Whiteley, Congregational; G. S. Swanson, Swedish Lutheran; Thos. Blackburn, Episcopal; Karl S. Bredenberg, Swedish Mission.

This committee will also do extensive work in the near by churches. The chart published did not give the offerings for benevolences on the part of the Episcopal church as they were not compiled when the chart was made. It is gratifying to know that this church is one of the heaviest givers, per member, of any church in the city. The figures for this church are as follows: Membership 75; for missions in America, \$75; for foreign missions, \$75; amount given each year per member, \$2.00.

SERVING OTHERS.

It is a beautiful and salutary arrangement, which we seldom reflect on as we should, that as a rule men only can become rich and great by supplying some want of their fellow men, by doing some work for others which others need and are willing to pay for, be that work moral guidance or material provision. We cannot rise to command except by stooping to serve.

AN INCESSANT COUGH.

Continued Dropping of Mucus into my Throat.

A severe cough is always a grave symptom. It may not indicate organic disease of the lungs. Even though the cough is a functional disturbance it is of sufficient gravity to demand prompt attention.

The dropping of mucus from the back part of the nose into the throat indicates nasal catarrh. Sometimes this goes on a long time before the patient pays any attention to it. It is stated on good authority that mucus dropping into the throat in this way is apt to excite catarrh of the stomach. At any rate, the condition ought to be corrected as soon as possible.

Mrs. Bourland, of Frankston, Texas, found after using Peruna that not only did the incessant cough disappear, but the dropping of mucus into the throat had also ceased. Read what she says:

"For twenty-three years I was a constant sufferer from chronic catarrh. I had a severe misery and burning in the top of my head. There was almost a continual dropping of mucus into my throat, which caused frequent expectoration. My entire system gradually became involved, and my condition grew worse. I had an incessant cough and frequent attacks of bilious colic, from which it seemed I could not recover. My bowels also became affected, causing alarming attacks of hemorrhages. I tried many remedies, which gave only temporary relief, or no relief at all. I at last tried Peruna, and in three days I was relieved of the bowel derangement. After using five bottles I was entirely cured."

"I most cheerfully recommend the use of Peruna to any one similarly afflicted."

People who object to liquid medicines can now obtain Peruna Tablets.

H. J. Hage and C. H. Adams have a large factory in Minneapolis now engaged in making rye crisp and a Swedish bread. At a recent meeting of the officers of the company it was decided to run the plant night and day.

E. A. Lamb has returned from a business trip to Chicago and Milwaukee.

Harland Stetson, son of J. A. Stetson, is now employed by the Weyerhaeuser in one of their twelve camps near Cloquet. Mr. Stetson being a limekeeper. The open air agrees with him and he is gaining in weight and strength. There is not a heavy snowfall in the northern country, but the loggers are satisfied with freezing weather which permits them to build ice roads and get the logs to the landings.

C. B. Rowley and Capt. Wm. Pascoe, of the Cuyuna-Duluth mine, went to Duluth Wednesday afternoon.

Clement Lamb is receiving medical treatment at Brainerd.

Mr. and Mrs. C. W. Potts left for Lincoln, Neb., Wednesday, called there by the death of her father who passed away in San Antonio, Texas.

Miss Esther Theorin will soon resume her work as deputy clerk at the district court clerk's office. Miss Esther is the efficient young lady who makes out the various assignments of Cupid, namely the marriage licenses. In many of the court house weddings she has served as a witness.

Deerwood on the whole has enjoyed a prosperous year and bankers and merchants and laboring men have little complaint to make. The growth of the exploration and mining development in and near Deerwood has had a most beneficial effect on business.

Winter Reverie

I saw the moon so broad and bright Sailing high on a frosty night. And the air swung far and far between The silver disk and the orb of green. And here and there a wisp of white Cloud film swam on the misty light. And crusted thickly on the sky, Higher and higher and yet more high, Were gold star points dusted through. The great, wide, silent vault of blue. Then I bethought me God was great And the world was fair, and so, I knelt I knelt me down and bent my head And said my prayers and went to bed. —Harper's Magazine.

10 CENT "CASCARETS" IS YOUR LAXATIVE

Best Liver and Bowel Cleanser and Stomach Regulator in the World —Work While You Sleep

Get a 10-cent box. Put aside—just once—the Salts, Pills, Castor Oil or Purgative Waters which merely force a passageway through the bowels, but do not thoroughly cleanse, freshen and purify these drainage organs, and have no effect whatever upon the liver and stomach.

Keep your "insides" pure and fresh with Cascarets, which thoroughly cleanse the stomach, remove the undigested, sour food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will make you feel great by morning. They work while you sleep—never gripe, sicken, and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have Headache, Biliousness, Coated Tongue, Indigestion, Sour Stomach or Constipated Bowels. Cascarets belong in every household. Children just love to take them.—Adv
